Leiden Bio Science Park in het kort

➤ Grootste LSH Campus in Nederland

➤ Top 5 LSH Campus in Europa

21.000 werknemers
20.000 studenten

Leiden Bio Science Park in het kort

Stichting Leiden Bio Science Park (LBSP)

Transformatie van Science Park naar Innovatiedistrict (2019 – 2023)

Meerjaren Visie & Ambitie voor 2024-2027

Externe positionering van het LBSP

Community building op het LBSP

Projecten opstarten (bv Human Capital agenda)

Bestuur met 6 founding partners,
triple helix structuur

Life Sciences & Health week (LSH week) - 2022

Leiden2022, European City of Science

Doel LSH week: Laten zien wat Leiden te bieden heeft op LSH gebied

Aanjagersrol voor coördinatie en programmering: Stichting LBSP en LUMC

Thema's: medicijnontwikkeling, preventie & leefstijl

Gevarieerd programma met 22 activiteiten in 8 dagen

LSH week - Leiden2022 event schedule
The Life Sciences & Health Week, as part of Leiden2022 (Leiden City of Science), will kick off on Saturday 28 May and will run until Sunday 5 June. Showcasing conferences, exhibitions and public events, this will be an ideal opportunity to come and see everything LBSP has to offer.

LSH week Weekend: Saturday 28 May till Sunday 29 May

The LSH week kicks off with the **Public Regenerative Medicine Day** on Saturday 28 May. This day is organised by the Science Agenda (NWA) and is aimed at people who are interested in this exciting topic. The day will be free of charge and registration is not necessary.

The **Public Regenerative Medicine Day** on Saturday 28 May is a perfect occasion to discover the latest developments in regenerative medicine. The day will be held at the Rijksmuseum Boerhaave, Naturalis and CORPUS. There will be a special Leiden2022 LSH program.

The exhibition **Technophilia** is on display from 16 March until 29 May at the Art Gallery of the LUMC. It portrays a futuristic world in which nature and technology have literally adapted to each other and have grown together. A lecture on this topic will be held in the LUMC Art Gallery on **Sunday 29 May**.

The **TK Challenge Bio Science Park Run** will take place on **Sunday 29 May** at 15.30. This 5-6 km run through the LBSP is open to everyone and lies in nicely with the prevention and lifestyle theme of the LSH week. The revenues of the run will go to Willem Alexander Children's Hospital in Leiden. Put on your running shoes and [register here](#).

LSH week Week: Monday 30 May till Friday 3 June

The scientific part of the LSH week will be officially opened on **Monday 30 May** with the **Global Impact in Health Symposium**. The importance of international academic, public and private partnerships in solving global health threats will be discussed during this symposium.

During the **LCAB symposium** on **Monday 30 May**, students present the projects they have carried out as part of their graduation internships. The topics of these projects are diverse from measuring microorganisms in soil with DNA technology to research into the health of rhinos in zoos. [Contact LCAB](#) for more information.

Expert Class - Financing young Life Sciences companies During this Expert Class on **Tuesday 31 May** financing options and successful strategies for young Life Sciences & MedTech companies are being discussed. The focus is on financing options for biotech and MedTech companies till series A financing round. [Register here](#).

Tech Talk: Single Cell on **Tuesday 31 May**. During this Tech Talk, we will present some exciting developments in the single-cell field covering the three pillars of scNL (technology, computation and application). The programme includes academic speakers from Leiden University and the LUMC as well as speakers from companies employing single-cell technologies in their workflow. [Register here](#).

The **FIGON DMD/EUFEPS Annual Meeting** will take place from **1 to 3 June** with the theme 'Boosting sustainable drug development in Europe: Top science below sea level'. [Check out the website](#) for more information and the programme.

NecstGen (Netherlands Center for the Clinical Advancement of Stem Cell and Gene Therapies) comprises a state-of-the-art facility for development and GMP manufacturing. NecstGen additionally offers cleanroom rental to allow organisations to maintain control of production while de-risking the capital investment required to do so. The official opening will take place on **Wednesday 1 June** from 16.00 onwards (invitation only).

Life Science & Health Career Event on **1 June**
The Life Science & Health Career Event on **Wednesday 1 June 2022** at CORPUS starts at 19.00 and will include an information market, workshops and one-on-one conversations. The event will be combined with the welcome reception for the FIGON Dutch Medicines Days & EUFEPS Annual Meeting 2022. [Register here](#) for the event.

Best practices on how to boost biotech innovation in the Netherlands will be discussed at the **Bridging Dutch Biotech from Bench to Business** event at Naturalis on **Thursday 2 June**. Main topics will be Entrepreneurship, Knowledge Transfer, Financing for startups and Support for startups. This event is organised by HollandBio, Planet Bio and Johnson & Johnson Innovation.

Join us on **Thursday 2 June** after work at the **Life Sciences Café** at Naturalis. We are very excited to organise our monthly network drinks in collaboration with HollandBio, unlock_LiveScience, FIGON DMD/EUFEPS and Naturalis. [Register here](#).

The installation **Folding Life** from artist Ana Costing will be opened on **Friday 3 June** at the LUMC Art Space. This artwork is inspired by protein structures and is produced in collaboration with the LUMC research group of Meindert Lamers.

LSH week Weekend: Saturday 4 June till Sunday 5 June

Discover the microscopic world around you! Have you always wanted to count insect hairs, inspect porcupine quills or see live how sweat on your skin is produced and evaporates? Then join a microscopy workshop at **Rijksmuseum Boerhaave** on **Saturday 4 June** from 10.30 to 16.30. Don't forget to bring some fun things from home to investigate! You can join whenever you want, no need to book or pay extra. Fun for 4 to 104 year olds. Check [the website](#) for more information.

The (international) symposium **Leiden Headache Center into a new era** on **4 and 5 June** provides an overview of the latest findings and treatment options in the field of headache. It provides the latest insights into various important headache diagnoses, headache mechanisms, and the latest treatment options. Participants will go home with knowledge about the state-of-the-art research.
